Thank you Kimi. I'll rework with your comments and touch base with you when you return.

Subject: Dewey Burdock ESA analysis

Deliberative/attorney-client privileged/attorney work product

Hi Lynne,

Thank you for sending this over! I think it's a great idea to check in along the way. I won't prepare a redline/strikeout at this point, as much of the wording will need edits and I think at this point, general feedback will be more helpful. One we have a fairly complete draft BA together, then we can work on wording edits if that sounds good to all of you.

Ex. 5 AC/DP

I will be out of the office until the end of this month, but happy to talk when I return.

Thanks again, Kimi

Subject: Report

Kimi and Lucita,

I wanted to submit part of what I am working on so you can let me know if my head is above water. My goal is to get the report to flow smoothly right now as far as reading it is concerned. I'll take care of format items at the end: headers, footers, margins, breaks, page numbers, references, footnotes etc. And anything else, like the maps.

I still have consultation, project description, environmental setting and ESA effects to go.

Here goes.
